

2021 Teacher of the Year

Kimberly Sanders
Badger State Baptist School, Oak Creek

Kimberly Sanders started working at Badger State Baptist School immediately after graduating from Bible college in 1994. She began teaching the 3rd-4th grade and quickly became the teacher that all the students loved. She created a warm and inviting classroom for every student that she has taught.

As time went on and Kim became a mother, she took some time off to raise her children. Once her children were school age, she was ready to jump back into her classroom and fill her role as a teacher.

Kim has always been willing to serve wherever needed and as taught a variety of classes. She has taught combined classrooms ranging from 1st-4th grade and was the head volleyball coach for many years. She is a teacher that others can rely on and parents can trust. Her heart and passion for Badger State and her students is evident. Her desire to serve the Lord has encourages many of her students to follow in her footsteps. Many of whom are currently working on staff with her at Badger State.

Recently, she decided to enroll in a master's program and deepen her passion for Christian education. She graduated with honors in 2021.

Kim has made a lasting impact on Badger State Baptist School. Only heaven will tell of all her influence.
